Sept. 4, 1999

Jane E. Henney
FDA Commissioner
5600 Fishers lane
Rockville, MD 20857

Dear Commissioner Henney:

Please consider the problem of people like myself who have to avoid sugars in their diet. I have had to learn that we do not need to eat sugar to have an energy packed diet. You can help a lot of people by disclosing more info on labels so we all can see just how much sugar is in various foods. We get enough natural sugar without ingesting added sugar! I'd also favor an FDA recommendation on max. added sugar per day, say 32 grams.

To you health,

Glenn Marshall
